Contract For $30,700 Let For Rebuilding of School at Sharp; Will Be Ready For Fall Term

Contract has been awarded for the rebuilding of the Sharp school to H. E. White, contractor of Tyler, it was announced here today by J. E. Johnson, architect.

The contract price is $30,700 and is regarded as a most advantageous price for the district now able to rebuild the school without government aid.

The Sharp school was destroyed by fire in the late summer of 1939, when it had been almost completed and ready for opening of school. It is one of the most modern school buildings in the state.

Under the contract awarded to H. E. White, the school is to be restored as originally built under plans of the architect, J. E. Johnson of Cameron. The contract price will restore the building, less equipment and included plastered ceilings, master clock and program machinery.

FIFTEEN MILLION SOLDIERS ON FRONTS

The battle of words in the European war took on renewed vigor today as Herman Goering, speaking for the Nazi government, said that Germany is ready to strike a decisive blow on the Western Front whenever Hitler gives the word.

The war is almost nine months old and Hitler has not yet given the word for the decisive blow which the Germans have said they are able to make. Little credence is given the statement by Goering nor can any reliance be placed on the statement of the allied leaders because the facts are that there is no war.

France has 8,000,000 men under arms, the best equipped and the best trained army in the history of the world. There is no room to doubt that the French are ready. The British have approximately 1,500,000 soldiers in France. There is an army of 750,000 men in the near East under command of the great French General Weigand.

Germany has approximately 5,000,000 soldiers and perhaps the swiftest striking army yet known to warfare.

If the war should come, the fight would be the most intense and costly ever known to humanity.

The British shot down two German bombing planes to day and with the exception of minor activity on the Western Front, this concluded the activities for the day.

A shake up in the British cabinet is due to be made within a few days.

CAMERON BAND WILL NOT ATTEND CONTEST

The State Band Contest, Region No. 5, will be held in Huntsville this week end on Friday and Saturday, April 5th and 6th.

The Yoe High School will not attend the State contest this year, as it rated a First Division award in all events at the National contest last year, and bands making such a rating skip the State contest of the following year, going direct to the National Band contest.

This is a ruling laid down by the National School Band Association, and a band must lose its First Rating in the National Contest before being allowed to compete in the Preliminary State Contest. The Yoe High band enters only the National Contest this year. This will be held in Waco on the dates of May 9, 10 and 11.

A group of five soloists and one ensemble will go from Cameron to the coming State contest. They must qualify in this contest to enter the National event. The soloists are: Doris Newton, flute; D. L. Lindsey, clarinet; Grady Baskin, cornet; Willard Skelton, trombone and Charles Green, baritone. The ensemble is composed of Doris Newton, flute; Roy Dunlap, clarinet; Gertrude Michalka, oboe; Inez Slaughter, bassoon and Diane Luckett, French horn.

WAR

Major developments in the European War were said to be in the offing Friday as the allied war council concluded its session in London, following which a statement was issued declaring that both England and France would not only speed up the war, but will not consent to peace until victory has been won.

The session of the counsel was secret. The new French Premier, Paul Reynaud, was in London for the conference. Sir Neville Chamberlain, the British Prime Minister will speak to the Houses of Parliament on Tuesday and may reveal further war plans.

The allies were called upon to revise their methods of operation due to the fact that Germany apparently has no intention of attacking on the Western Front. Twenty years of preparation against the day of German attack finds the allies unprepared for an offensive war. However, there was good indication that both France and England would soon take the offensive.

The only development of the day was the attack on a British transport by German submarine with one patrol boat sunk and a number of commercial vessels damaged.

Kenneth Elliott of Caldwell visited in Cameron Sunday.

JACKSON

(Continued from page 1)

with business in Cameron for a long period of time and served the city as alderman, has been active in civic affairs, and is a student of government and well informed on the present day needs of Texas.

Regarding the payment of Old Age Pensions, Mr. Jackson said that he stands for an immediate correction of existing conditions and believes the legislature should provide funds so that all old people who have been taken off the list be restored at once so they may receive what they formerly were paid by the State government. He believes that the old people should be adequately paid and thinks the method of handling the Old Age Pension has resulted in wide spread discrimination against those who need it most.

Discussing briefly the question of transportation, Mr. Jackson said that he would favor changes in the present law governing load limits for trucks, that those who ship by truck and those who own and operate trucks have been grossly discriminated against and steps should be taken at once to insure justice to truck operators.

Regarding taxation, Mr. Jackson was inclined to favor taxes on natural resources to bolster state income and to provide adequate money for old age assistance, teachers retirement and dependent children. Mr. Jackson said that he will not hesitate to declare himself on all public questions, but the best kind of service in the legislature can be rendered by the man who keeps in touch with developments and works in accordance with the needs and demands of the people.

In making my announcement, I want the people of Milam County to know that I have no other reason for announcing than the belief that I can be of service and will go to Austin, free to work for the people, for the best interest of Milam County, and for the best interest of Texas. I will consult the people and I will use my best judgment at all times on every question that arises to insure them a representative that will stay on the job and fight their battles against all harmful interests. I pledge the people that they will never find me shirking my duty at any time."

Mr. Jackson by reason of his long resident in Milam County is thoroughly identified with the citizenship, knows the needs of the people, what they think and would begin at once, a worthwhile service to all the people. His friends in all sections of the county are delighted to know that he is to be a candidate and will not hesitate to urge his qualifications and his ability to serve all people.

As a young man, Mr. Jackson would give the office the advantage of energy. As a business man, he would bring to the office the advantage of wide experience and would be able to play a prominent part in solving the problems that confront members of the legislature. Mr. Jackson is married and the father of three children. At the present time, he is engaged in the cafe business in Cameron and has been actively identified with business in Central Texas for a number of years.

He urges his friends to lend their support to his campaign and will greatly appreciate anything you may do to advance his candidacy. He plans an active campaign and hopes to be able to discuss with the voters all issues and to ask each one for their vote and support, pledging a service in keeping with the best traditions of the Texas legislative body.

If necessary in the course of the campaign, he will issue a complete statement, outlining his views on all questions at issue. In the meantime, he meets the wishes of thousands of friends and submits his candidacy based upon his ability to serve and his desire to co-operate for a better Milam County and a more happy and prosperous people.

London Denies That Allied Warships Will Go Into Black Sea

An offirial dispatch from London to the Daily Herald Monday said the British government denies that Turkey has agreed to the passage of warships through the Dardenelles into the Black Sea.

A news story, given wide publication Saturday said that the Turks had agreed to pass ships of British and French through the straits for war on Soviet commerce, especially oil now reaching the Reich.

In the last world war Britain lost 200,000 soldiers trying to wrest the Dardenelles from Turkey. Winston Churchill, now First Sea Lord of the British Navy, directed the Dardenelles campaign in the world war.

Germany Threatens Exposure of American Ambassador to France

Germany today declared she would issue a document signed by Ambassador William C. Bullitt to France in a further exposure of what the Nazis claim as the meddling of American diplomats abroad.

France issued a statement saying that Germany is mad at Roosevelt because he would not aid in a Hitler peace move.

Despite denials in Washington the Germans continue with what they claim are authentic documents taken from the archives of the foreign office in Warsaw when the Germans captured that city.

Meantime the Polish government set up in France after the German invasion prepared to issue statements showing that no documents of any nature were left in Warsaw, that all files were sent out of the country early in September.

What Germany hopes to gain was described in London, Paris and Washington as opposition to Roosevelt in the coming election to assist in a Republican victory and to discredit the American government.

A nation's poll Sunday showed the American people 84 per cent outspoken against Germany's war aims.

FRENCH SHOOT DOWN PLANES

There was renewed activity on the Western Front with violent artillery battle between the Germans and the French. The French claim to have shot down a number of German planes reversing the story of Monday when the French were reported to have lost heavy to the Germans.

Mrs. J. B. Parnell and Mrs. Elmer Floyd visited relatives, Messrs. and Mesdames Frank and Abner Parnell at Durango Sunday.

ROOSEVELT RALLY STIRS UP TEXANS

The foundation of political Texas quaked today following the Roosevelt rally in Fort Worth last night in which former Governor James E. Ferguson, stormy petrel of Lone Star campaigns, took part.

The formal demand has been made by Roosevelt supporters to fight for convention delegates unless the Garner organization agrees to an uninstructed delegation from Texas to the National Convention.

Several weeks ago representatives of the Garner campaign visited Cameron. Whether a fight will be made to land the Milam delegation for Garner remains to be seen.

Precinct conventions are held in May. The Garner campaign was lagging badly but Texans generally seemed inclined to give the Vice President Lone Star delegates.

Political appointees of Roosevelt now barred by the Hatch bill from engaging in politics, are mad as well as scared.

CHRISTIAN SCIENCE SERVICES

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 7.

The Golden Text is. "Truly in vain is salvation hoped for from the hills, and from the multitude of mountains: truly in the Lord our God is the salvation of Israel" (Peremiah 3:23.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof: but he that doeth the will of God abideth for ever" (I John 2:15-17.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If the disciples is advancing spiritually, he is striving to enter in. He constantly turns away from material sense, and looks towards the imperishable things of Spirit" (page 21)

HOME CLUB

The gamble with the weather is less hazardous for the garden planted early than for the one that is planted late thinks Mrs. Otto Galbreath, garden demonstrator of the Nile Home Demonstration Club. Mrs. Galbreath plants in the fall and on through cold weather, and she finds she does not lose as much by cold early in the year as by heat and drought later.

Her garden is broken in August and barnyard manure is applied in August or September. She was using lettuce, cabbage, onions and spinach from her garden when others were just beginning their planting.

"I lost beans in January," said Mrs. Galbreath, "but I might not have, and the seed cost nothing as I saved them. I had other vegetables that I did not lose. I know from experience that drought and heat will cut short my garden season."

English peas in the garden are full of young pods; beans are up again; radishes and carrots are nearly ready for use and Irish potatoes also are up.
